

# Smarter Risk Management

**S**

**Specific**

Task-focused. No generic templates.

**M**

**Monitored**

Verified on site, not assumed on paper.

**A**

**Achievable**

Controls that work under real site conditions.

**R**

**Relevant**

Built around how the work is actually done.

**T**

**Timely**

Applied before work starts and updated as conditions change.

**E**

**Empowered**

Stop work. Speak up. Fix issues early.

**R**

**Robust**

Multiple controls. No single point of failure.

Want the expanded version? Contact Red Insight to discuss how SMARTER applies to your business, industry and current WHS system.
